

build night 3

2022-02-21

agenda

- homework recap
- Begin specializing.
 - hunting down Mate1 dataset
 - or finding an alternative
 - fine-tuning GPT-3 model on [example data](#)
 - (maybe) replicating models in previous research

 Usability 8.8  Tags sports, basketball

Description

homework

- Have a meeting outside this build night.
 - I recommend [Jitsi](#) for free (and libre) end-to-end encrypted video calls.
You are hackers after all! :P
- No more busywork!
- I'm waiting to hear back from the academic supervisor about the first advisor meeting.
