build night 2

2022-02-14

agenda

- discussing homework, past research
- hunting for the datasets
- messing with API

promising datasets

- Mate1
  - January 2016
  - 27.4 million accounts
- Beautiful People
  - 2015 November
  - 1.1 million accounts
- Both breaches contain many pieces of extremely personal information.
  - may be difficult to get a hold of

There are more potential datasets!

homework

- Read [Machine Learning Basics](#) from "Deep Learning".
  - introduction to 5.4, inclusive
  - You don't have to fully understand every detail, but it should give you some good background when it comes time to train our model, even if we aren't building our model from scratch.
